Additional information	***ALARIS is a business of the Kodak Alaris Holdings Limited parent company registered in the United Kingdom offering a wide range of scanners from desktop, departmental to production models. Kodak Alaris was formed in 2013 as a spin-off from the Eastman Kodak Company. In January 2020 the Buyers Laboratory (BLI), the world's leading independent evaluator of document imaging hardware, software, and services, announced that Kodak Alaris won their coveted 2020 Scanner Line of the Year award for the fourth time in five years. Given once a year, this award recognises the vendor whose product line is deemed best overall based on BLI's rigorous laboratory evaluations.***

Additional information	***The Alaris E1025 desktop business scanner and imaging software provides a solution to greatly reduce unmanaged paperwork at home or the office. Ideal for financial advisors, healthcare clinics, or customer service counters, this is a cost-effective solution to capture and send documents. The E1035 is compact, efficient, accurate, and reliable to help do more with information and meets the EPEAT Ecolabel Silver Criteria and Energy Star.*** ***Compliance testing for CE marking was carried out on this scanner at one of the external Test Houses we use in the most challenging arrangement and the EU Declaration of Conformity (DoC) issued accordingly.*** ***Annex-B1 is more appropriate than B2 as we are declaring the environmental attributes of the scanner to process images from hard copies in a variety of digital formats.***

15.1	*Kodak Alaris has a well-established system for collecting all its electrical and electronic equipment, e.g. scanners, order stations, kiosks, monitors and printers, placed on the market in Europe and scanners in the USA. We have an extensive service organisation with excellent availability of spares such that we can upgrade scanners several times during their working lives to avoid the items becoming wastes too early. When the user no longer wants our scanners or has moved to a new model our End of Life (EoL) partners in the EEA countries collect and treat the equipment as WEEE.*	
15.2	*The Alaris E1035 and all our 28 scanners on the market, comply with the EPEAT EcoLabel Silver requirements which demonstrates our commitment to environmental issues. We are working to gain the gold level EPEAT recognition for several scanners in 2020. In addition, all our scanners have USA EPA Energy Star compliance and have energy saving features when not in operational mode.*	
15.3	*This scanner is designed for use on a desk having a small physical footprint 0.204m x 0.312m (w x d) and is only 0.183m high. It has a mass of 3.3kg*	
15.4	*All our scanners are designed in-house under our global product stewardship ISO 14001:2015 Certified Environmental Management System. Furthermore, every Alaris scanner placed on the market is manufactured in ISO 14001:2015 and ISO 9001:2015 certified facilities.* *Please note that Kodak Alaris Holdings Limited (KAHL) makes no representations, guarantees, assurances or warranties whether express or implied, regarding the information contained in this document.
